B Communications' Refinancing: On September 18, 2016, the Company's subsidiary, B Communications, announced the completion of its successful issuance of approximately NIS 1.9 billion of Series C Debentures. The principal of the Series C Debentures, which is unlinked, will be payable in four equal annual installments payable on November 30 of each of the years 2020 through 2023 and one installment payable on November 30, 2024. Each of the first four installments will be equal to 7.5% of the principal amount of the aggregate amount of the Series C Debentures issued and the last installment will equal to 70% of such principal amount. The annual coupon of the Series C Debentures was set on 3.6% and will be denominated in NIS. The net proceeds from the offering were used to fully redeem B Communications' outstanding \$717 million of 7³/₈% senior secured notes (the "Notes"). In addition, B Communications' terminated the cross currency swap hedge transactions it entered into to hedge its exposure to fluctuations in the US\$ exchange rate as a result of the Notes issuance.

Internet Gold's Cash Management: Internet Gold manages its cash balances according to an investment policy that was approved by its board of directors. The investment policy seeks to preserve principal and maintain adequate liquidity while maximizing the income received from investments without significantly increasing the risk of loss. According to Internet Gold's investment policy more than 80% of its funds must be invested in investment-grade securities. As of today, 83% of its funds are invested in investment-grade securities.

Internet Gold's Third Quarter Consolidated Financial Results:

Internet Gold's consolidated revenues for the third quarter of 2016 totaled NIS 2.5 billion (\$668 million), a 3.5% decrease compared to the NIS 2.6 billion reported in the third quarter of 2015. For both the current and the prior-year periods, Internet Gold's consolidated revenues consisted entirely of Bezeq's revenues.

Internet Gold's consolidated operating income for the third quarter of 2016 totaled NIS 487 million (\$130 million), a 7.2% decrease compared to NIS 525 million reported in the third quarter of 2015.

Internet Gold's consolidated loss for the third quarter of 2016 totaled NIS 41 million (\$11 million) compared with net income of NIS 236 million reported in the third quarter of 2015. The decrease resulted from B Communications' loss in the third quarter of 2016, which included a one-time refinancing and associated expenses of NIS 270 million.

Internet Gold's Third Quarter Unconsolidated Financial Results:

As of September 30, 2016 Internet Gold held approximately 65% of the outstanding shares of B Communications. Internet Gold's interest in B Communications' loss for the third quarter of 2016 totaled NIS 166 million (\$44 million), compared with its share in B Communications' net income of NIS 25 million in the third quarter of 2015. B Communications' loss in the third quarter of 2016 included one-time refinancing and associated expenses of NIS 270 million.

Internet Gold's unconsolidated net financial expenses for the third quarter of 2016 totaled NIS 13 million (\$4 million) compared with NIS 22 million in the third quarter of 2015. These expenses consist mainly of interest and CPI linkage expenses related to its publicly-traded debentures.

Internet Gold's loss attributable to shareholders for the third quarter of 2016 totaled NIS 180 million (\$48 million) compared with net income attributable to shareholders of NIS 2 million in the third quarter of 2015.

Commenting on the results, Doron Turgeman, CEO of Internet Gold said, “We expect that the successful refinance of B Communications’ debt will decrease its annual financial expenses and increase its net profit by approximately NIS 150 million starting in 2017. The new debt structure of B Communications will significantly improve our long term position and will help us to continue to create value for our shareholders in the quarters ahead,” concluded Mr. Turgeman.

Bezeq Group Results (Consolidated)

To provide further insight into its results, the Company is providing the following summary of the consolidated financial report of the Bezeq Group for the quarter ended September 30, 2016. For a full discussion of Bezeq’s results for the quarter ended September 30, 2016, please refer to its website: <http://ir.bezeq.co.il>.

EBITDA (trailing twelve months)	4,067	4,261	(4.6%)
Net debt/EBITDA (end of period) ²	2.31	2.09	10.4%

¹ Free cash flow is defined as cash flow from operating activities less net payments for investments.

² EBITDA in this calculation refers to the trailing twelve months.

Revenues of the Bezeq Group in the third quarter of 2016 were NIS 2.51 billion (\$668 million) compared to NIS 2.60 billion in the corresponding quarter of 2015, a decrease of 3.5%. The decrease was due to lower revenues in all of the Bezeq Group's segments (primarily at Pelephone).

Salary expenses of the Bezeq Group in the third quarter of 2016 were NIS 501 million (\$133 million) compared to NIS 506 million in the corresponding quarter of 2015, a decrease of 1.0%.

Operating expenses of the Bezeq Group in the third quarter of 2016 were NIS 994 million (\$265 million) compared to NIS 1.00 billion in the corresponding quarter of 2015, a decrease of 0.6%. The decrease was primarily due to a reduction in interconnect fees and payments to telecom operators, terminal equipment and building maintenance expenses partially offset by an increase in content services, services by sub-contractors and marketing expenses.

Other operating income of the Bezeq Group in the third quarter of 2016 amounted to NIS 26 million (\$7 million) compared to NIS 13 million in the corresponding quarter of 2015. The increase in other operating income was due to an increase in capital gains from the sale of fixed assets.

Operating income of the Bezeq Group in the third quarter of 2016 was NIS 599 million (\$159 million) compared to NIS 652 million in the corresponding quarter of 2015, a decrease of 8.1%.

Tax expenses of the Bezeq Group in the third quarter of 2016 were NIS 99 million (\$26 million) compared to NIS 144 million in the corresponding quarter of 2015, a decrease of 31.3%. The decrease in tax expenses was primarily due to a reduction in profit before tax as well as a decrease in the corporate tax rate from 26.5% to 25% beginning January 1, 2016, as well as a decrease in tax expenses in respect of prior years at Bezeq Fixed-Line.

Net income of the Bezeq Group in the third quarter of 2016 was NIS 394 million (\$105 million) compared to NIS 407 million in the corresponding quarter of 2015, a decrease of 3.2%.

EBITDA of the Bezeq Group in the third quarter of 2016 was NIS 1.04 billion (\$277 million) (EBITDA margin of 41.5%) compared to NIS 1.11 billion (EBITDA margin of 42.6%) in the corresponding quarter of 2015, a decrease of 6.1%.

The trailing twelve months EBITDA of the Bezeq Group as of September 30, 2016 was NIS 4.1 billion (\$1.1 billion) compared to NIS 4.3 billion as of September 30, 2015, a decrease of 4.6%.

Payments for investments (Capex) of the Bezeq Group in the third quarter of 2016 were NIS 349 million (\$93 million) compared to NIS 427 million in the corresponding quarter of 2015, a decrease of 18.3%.

Cash flow from operating activities of the Bezeq Group in the third quarter of 2016 was NIS 902 million (\$240 million) compared to NIS 1.05 billion in the corresponding quarter of 2015, a decrease of 14.1%. The decrease was primarily due to increased payments for the retirement of employees at Bezeq Fixed-Line as well as changes in working capital.

Free cash flow of the Bezeq Group in the third quarter of 2016 was NIS 577 million (\$154 million) compared to NIS 645 million in the corresponding quarter of 2015, a decrease of 10.5%.

Total debt of the Bezeq Group as of September 30, 2016 was NIS 11.2 billion (\$3 billion) compared to NIS 11.1 billion as of September 30, 2015.

Net debt of the Bezeq Group was NIS 9.40 billion (\$2.5 billion) as of September 30, 2016 compared to NIS 8.92 billion as of September 30, 2015.

Net debt to EBITDA (trailing twelve months) ratio of the Bezeq Group as of September 30, 2016 was 2.31 compared to 2.09 as of September 30, 2015.

Notes:

A. Convenience Translation to Dollars: For the convenience of the reader, certain of the reported NIS figures as of September 30, 2016 have been presented in millions of U.S. dollars, translated at the representative rate of exchange as of September 30, 2016 (NIS 3.758 = U.S. \$1.00). The U.S. dollar (\$) amounts presented should not be construed as representing amounts receivable or payable in U.S. dollars or convertible into U.S. dollars, unless otherwise indicated.

B. Use of non-IFRS Measurements: We and the Bezeq Group's management regularly use supplemental non-IFRS financial measures internally to understand, manage and evaluate its business and make operating decisions. The following non-IFRS measures are provided in the press release and accompanying supplemental information because management believes these measurements provide consistent and comparable measures to help investors understand the Bezeq Group's current and future operating cash flow performance and are useful for investors and financial institutions to analyze and compare companies on the basis of operating performance:

- EBITDA - defined as net income plus net interest expense, provision for income taxes, depreciation and amortization;
- EBITDA trailing twelve months - defined as net income plus net interest expense, provision for income taxes, depreciation and amortization during last twelve months;
- Free Cash Flow (FCF) - defined as cash from operating activities less cash for the purchase/sale of property, plant and equipment, and intangible assets, net;
- Net debt - defined as long and short term liabilities minus cash and cash equivalents and short term investments; and
- Net debt to EBITDA ratio - defined as net debt divided by the trailing twelve months EBITDA.

These non-IFRS financial measures may differ materially from the non-IFRS financial measures used by other companies.

The Bezeq Group defines EBITDA as net income before financial income (expenses), net, impairment and other charges, expenses recorded for stock compensation in accordance with IFRS 2, income tax expenses and depreciation and amortization. We present the Bezeq Group's EBITDA as a supplemental performance measure because we believe that it facilitates operating performance comparisons from period to period and company to company by backing out potential differences caused by variations in capital structure, tax positions (such as the impact of changes in effective tax rates or net operating losses) and the age of, and depreciation expenses associated with, fixed assets (affecting relative depreciation expense).

EBITDA should not be considered in isolation or as a substitute for net income or other statement of operations or cash flow data prepared in accordance with IFRS as a measure of profitability or liquidity. EBITDA does not take into account our debt service requirements and other commitments, including capital expenditures, and, accordingly, is not necessarily indicative of amounts that may be available for discretionary uses. In addition, EBITDA, as presented in this press release, may not be comparable to similarly titled measures reported by other companies due to differences in the way that these measures are calculated.

Management of Bezeq believes that free cash flow is an important measure of its liquidity as well as its ability to service long-term debt, fund future growth and to provide a return to shareholders. We also believe this free cash flow definition does not have any material limitations. Free cash flow is a financial index which is not based on IFRS. Free cash flow is defined as cash from operating activities less cash for the purchase/sale of property, plant and equipment, and intangible assets, net.

Bezeq also uses net debt and the net debt to EBITDA trailing twelve months ratio to analyze its financial capacity for further leverage and in analyzing the company's business and financial condition. Net debt reflects long and short term liabilities minus cash and cash equivalents and investments.

Reconciliations between the Bezeq Group's results on an IFRS and non-IFRS basis with respect to these non-IFRS measurements are provided in tables immediately following the Company's consolidated results. The non-IFRS financial measures are not meant to be considered in isolation or as a substitute for comparable IFRS measures, and should be read only in conjunction with its consolidated financial statements prepared in accordance with IFRS.

Designated Disclosure with Respect to the Company's Projected Cash Flows

In connection with the issuance of the Series D Debentures in 2014, we undertook to comply with the "hybrid model disclosure requirements" as determined by the Israeli Securities Authority and as described in the prospectus governing our Series D Debentures.

This model provides that in the event certain financial "warning signs" exist, and for as long as they exist, we will be subject to certain disclosure obligations towards the holders of our Series D Debentures.

In examining the existence of warning signs as of September 30 2016, our board of directors noted that our consolidated financial statements (unaudited) as well as our separate internal (unpublished) unaudited financial information as of and for the quarter ended September 30, 2016 reflect that we had a continuing negative cash flow from operating activities of NIS 1 million for the third quarter of 2016.

The Israeli regulations provide that the existence of a continuing negative cash flow from operating activities could be deemed to be a "warning sign" unless our board of directors determines that the possible "warning sign" does not reflect a liquidity problem.

Such continuing negative cash flow from operating activities results from the general operating expenses of the Company of NIS 1 million for the third quarter of 2016 and due to the fact that the Company, as a holding Company, does not have any cash inflows from operating activities. Our main source of cash inflows is generated from dividends (classified as cash flow from investing activities) or debt issuances (classified as cash flow from financing activities).

Such continuing negative cash flow from operating activities does not effect our liquidity in any manner. Our board of directors reviewed our financial position, outstanding debt obligations and our existing and anticipated cash resources and uses and determined that the existence of the continuing negative cash flow from operating activities, as mentioned above, does not reflect a liquidity problem.
