In both cases the selling price has been determined on the basis of the average closing quotes during the 30 calendar days preceding the date of the disposal.

As a result of the buy-back transactions up to date and the both abovementioned disposals for 64,287 shares, the Company holds a total of **440,550** treasury shares on 12 January 2018 or 2.0196 % of the actual number of shares issued (i.e. 21,813,793).
