

Repayment of Loan Facility

Thursday, 28 April 2016: Environmental Clean Technologies Limited (ASX: ESI) (ECT or Company) is pleased to provide the following update to shareholders.

The Company has repaid in full the 'Fast Finance Follow-on' loan facility arranged through Platinum Road. This repayment brings the Company's debt level to zero.

Background

The Company previously announced (5 May 2015) the extension of its, then existing, *Fast Finance* loan facility by \$1.2M, to be drawn in tranches of \$300,000. The Company subsequently only drew the first \$300,000 tranche of this \$1.2M.

About ECT

ECT is in the business of commercialising leading-edge energy and resource technologies, which are capable of delivering financial and environmental benefits.

We are focused on advancing a portfolio of technologies, which have significant market potential globally.

ECT's business plan is to pragmatically commercialise these technologies and secure sustainable, profitable income streams through licencing and other commercial mechanisms.

About Coldry

When applied to lignite and some sub-bituminous coals, the Coldry beneficiation process produces a black coal equivalent (BCE) in the form of pellets. Coldry pellets have equal or superior energy value to many black coals and produce lower CO₂ emissions than raw lignite.

About MATMOR

The MATMOR process has the potential to revolutionise primary iron making.

MATMOR is a simple, low cost, low emission, production technology, utilising the patented MATMOR retort, which enables the use of cheaper feedstocks to produce primary iron.
