

## DRONE VOLT

---

### Presents at EUROSATORY International Exhibition of Defense and Security

---

*Villepinte, France June 10, 2016 - DRONE VOLT, manufacturer and French leader in civilian drones for professional applications, will exhibit its range of civilian drones for surveillance and security at the Eurosatory International Exhibition of Defense and Security, booth K840 Hall 5A.*

Drones have become an essential solution for observation, reconnaissance and identification.

**DRONE VOLT will present its full range of professional drones complete with their latest innovations at Eurosatory:**

- The Z18 UF is an autonomous surveillance station designed to monitor infrastructure or sensitive sites. Utilizing the hover mode our tethered drone ensures non stop monitoring.
- The TEAR GAS drone allows security forces to spray tear gas or pepper spray safely and with great accuracy.
- The JANUS 360 Drone is dedicated to virtual reality content creation and will be important in helping with field simulation techniques for training simulators.

With these important products, DRONE VOLT will certainly expand its customer base in the markets of surveillance and security.
