

DRONE VOLT

presents its surveillance solutions at SHIELDAFRICA and ENFORCE TAC

Villepinte, 24 January 2017 - DRONE VOLT, the French professional drone manufacturer, is presenting solutions from its new range of aerial surveillance drones at two major security trade shows: SHIELDAFRICA, from the 24th to the 26th of January 2017, and ENFORCE TAC, from the 1st to the 2nd of March 2017.

Civilian surveillance drones are currently in demand by a number of public and private actors to provide security for sensitive sites, infrastructure, events and disaster sites etc.

Within the scope of its international development, DRONE VOLT will present the latest surveillance models it has developed, including the **HERCULES UF** "Unlimited Flight" flagship model, at:

- SHIELDAFRICA, an international security and defence trade show in Abidjan (Ivory Coast) taking place between the **24th and the 26th of January 2017** – Stand AB – 428.
- ENFORCE TAC: Public safety trade show in Nuremberg (Germany) over the **1st and 2nd of March 2017**– HALL 10.1 STAND 634.

"Europe and Africa are two continents in which demand for surveillance drones is increasing markedly. Africa is a dynamic market with strong potential for growth. The difficulty in accessing landlocked areas, the lack of transport infrastructure, the high cost of travel, etc. in this continent make drones a particularly suitable surveillance tool" says Olivier Gualdoni, CEO of DRONE VOLT.
